

## Office and Mail Manufacturing

### Committed to the mailing industry, committed to excellence.

Office and mail equipment products and components were amongst the first products made by IntelliMetal. Our years of experience have resulted in an efficient manufacturing process that doesn't sacrifice durability and quality. We invest in world-class equipment and continually develop our team of experts to ensure we are more than prepared to meet your manufacturing challenges.

We are dedicated to the delivering the quality, precision and innovation you require.

### Customize our process to your needs

Innovative solutions to all of your manufacturing challenges

Engineering

Prototyping

Manufacturing

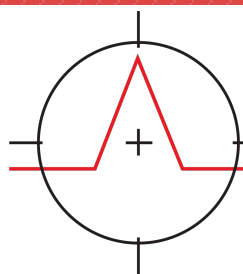

Assembly

Supply Chain  
Management

IntelliMetal offers an extensive range of value-add services. No need to source multiple vendors, thanks to our in-house expertise. Plus, we'll provide you with a personalized project manager who will work with you from beginning to end to meet goals and exceed your expectations.

**Innovation is powerful. Put an IntelliMetal Engineering Team to work for you today!**
